

Eakins Heating & Cooling HVAC Lead & Reputation Engine

A practical foundation to help more Peterborough homeowners find Eakins, trust the business quickly, and book service instead of calling the next HVAC company.

Executive Summary

Eakins Heating & Cooling already has the hardest thing to build: real-world credibility. The current opportunity is to make the online presence reflect that credibility and tighten the systems that capture leads, reviews, and follow-up.

The goal is simple: more people find you, trust you, and contact you — with fewer leads slipping through the cracks.

What We're Solving

1. Findability

Help Eakins show up better when local homeowners search for HVAC help.

2. Trust

Improve the first impression with reviews, Google profile quality, and website credibility.

3. Lead Capture

Respond instantly to missed calls and online inquiries so hot leads don't move on.

4. Follow-Up

Automate reminders, review requests, estimate follow-up, and customer communication.

Recommended System

HVAC Lead & Reputation Engine combines the core pieces a local HVAC business needs before spending aggressively on ads.

Google Business Profile

Review Growth

Missed-Call Text Back

Booking Follow-Up

AI Voice Option

Website Conversion

- ✓ Booking confirmations
- ✓ 24-hour and 1-hour reminders
- ✓ Quote/estimate follow-up
- ✓ Monthly performance summary

Recommended Package

Setup

\$1,000

One-time buildout for the core foundation: Google cleanup, review system, missed-call text back, follow-up automation, website conversion refresh, and tracking foundation.

Monthly Management

\$597 /month

Ongoing review campaign management, Google profile maintenance/posts, local SEO updates, social content support, automation support, reporting, and optimization.

AI Voice Add-On: 24/7 overflow/after-hours call answering, lead qualification, and booking/callback capture. Suggested add-on: **\$197–\$300/month** depending on call volume and setup.

Social Media Add-On: Facebook business page management plus Instagram setup/content posting if selected. Suggested add-on: **\$197–\$397/month** depending on posting frequency.

Ads Management Add-On: Google Local Services Ads or Search Ads can be added once the foundation is live. Suggested management: **\$300–\$500/month + ad spend**.

60–90 Day Implementation Plan

Days 1–14

- Collect access
- Clean up Google profile
- Launch missed-call text back
- Launch review request system
- Scope AI voice option if wanted

Days 15–45

- Website CTA/trust updates
- Facebook cleanup and Instagram setup if selected
- Follow-up automations active
- Review requests begin consistently
- AI voice assistant can go live if selected
- Local SEO pages/content underway

Days 45–90

- Review count building
- Lead capture more consistent
- Reporting reviewed
- Paid ads decision made with tracking ready

Success Measures

- More reviews requested
- Fewer missed-call losses
- Cleaner Google presence
- Better website conversion path

Google Ads Note

For sponsored HVAC placement, the two best options are usually **Google Local Services Ads** and **Google Search Ads**. The recommendation is to start with the foundation first so paid traffic is not sent into a leaky system.

No honest provider can guarantee exact Google ranking, lead volume, or #1 placement. What can be controlled is profile quality, reviews, website conversion, follow-up speed, tracking, local SEO foundation, and ad setup.

Next Step

If Jake wants to move forward, begin with the Growth Package and collect access to:

- ✓ Google Business Profile
- ✓ Website login or website manager contact
- ✓ Current phone setup
- ✓ Facebook business page access and Instagram setup approval
- ✓ Logo, photos, job photos, service areas, and most profitable job types
