

1APP Associate Sales Program — Draft v1

Purpose: Create a clean, controlled structure for people who want to sell 1APP without turning the business into chaos.

Core rule: Associates help bring in qualified clients. 1APP owns the brand, pricing, client accounts, fulfillment standards, and final approval of every deal.

1. Program Positioning

1APP Associates are independent sales/referral partners who introduce local businesses to 1APP and help book qualified audits/demos.

They are **not employees**, **not owners**, and **not authorized to make promises outside approved 1APP offers**.

Plain-English pitch for associates:

1APP helps small businesses stop losing leads, automate follow-up, book more jobs, and save time using one simple business app. Your job is to start conversations with business owners, book qualified audits, and help them see where they're leaking time or money.

2. Best-Fit Associate Profile

Good associates should already be comfortable talking to business owners.

Ideal people:

- Connected locally
- Comfortable with phone, DM, text, and in-person conversations
- Coachable
- Not afraid of follow-up
- Understand small business pain
- Can represent the brand professionally
- Will use the approved pitch instead of making random claims

Avoid:

- People who only want passive referral money
- People who exaggerate income claims
- People who discount without permission

- People who cannot follow a simple CRM process
 - Anyone who might damage the 1APP brand for a quick commission
-

3. Associate Levels

Level 1 — Referral Associate

Best for: People who can introduce warm business contacts but do not want to run full sales calls.

Responsibilities:

- Identify potential business clients
- Make warm introductions
- Book the business owner into a 1APP audit/demo
- Submit lead details into the approved form/CRM

Can do:

- Share approved 1APP materials
- Invite business owners to a free audit
- Make introductions to Tony/Justin/1APP sales team

Cannot do:

- Quote custom pricing
- Promise features, timelines, guarantees, or results
- Run independent demos unless approved
- Claim to be an owner/partner of 1APP

Compensation:

- **\$150 one-time referral fee** when the referred client signs and pays their first invoice
 - No recurring commission at this level
 - Paid only on collected revenue after any refund window/chargeback risk clears
-

Level 2 — Sales Associate

Best for: People who can prospect, qualify, follow up, and help close using the approved 1APP sales process.

Responsibilities:

- Prospect businesses in approved niches
- Book audits/demos
- Complete basic discovery using the 1APP qualification checklist
- Track all activity in CRM
- Follow up until closed/lost
- Bring Tony/Justin into the close when needed

Can do:

- Prospect cold/warm leads
- Use approved scripts and offers
- Present standard packages
- Help close standard Starter/Growth/Pro Ops packages

Cannot do without approval:

- Discount pricing
- Offer custom builds
- Modify contract terms
- Promise same-day launches
- Sell outside approved niches/offers

Compensation:

- **40% of setup fee** if a setup fee is charged
- **20% of monthly recurring revenue for the first 12 paid months**
- Commission applies only to accounts the associate sourced and helped close
- Commission stops if client cancels, refunds, chargebacks, or fails to pay

Example:

- Client buys Growth at \$399/month with \$500 setup
 - Associate earns \$200 from setup
 - Associate earns \$79.80/month for up to 12 paid months
 - Total potential first-year commission: \$1,157.60
-

Level 3 — Certified 1APP Partner

Best for: A stronger seller who can also manage the relationship and possibly help with onboarding or basic setup after training.

Requirements:

- Complete 1APP training
- Bring in at least 3 paying clients
- Maintain CRM hygiene
- Demonstrate clean sales calls with no overpromising
- Get approval from Tony/Justin

Responsibilities:

- Prospect and close approved clients
- Help collect onboarding info
- Coordinate handoff to fulfillment
- Stay involved with client success when needed
- Protect retention by maintaining the relationship

Compensation option A — Sales-only partner:

- 50% of setup fee
- 25% of MRR for first 12 paid months

Compensation option B — Relationship manager partner:

- 50% of setup fee
- 15% ongoing MRR while they actively manage relationship support and retention
- Ongoing commission requires active account involvement and CRM notes

Important: Use Option B only for someone who genuinely reduces Tony/Justin workload. Do not give lifetime recurring commission to someone who only made an intro.

4. Recommended Starting Structure

For the first wave, keep it simple:

1. Everyone starts as **Referral Associate** or **Sales Associate**.
2. No one starts as Certified Partner.
3. Certified Partner status must be earned after proof of quality.
4. No overrides. No recruiting downline. No multi-level structure.
5. 1APP pays only on closed, paid, retained clients.

Reason: 1APP needs clean sales growth, not a messy army of people making claims the company has to clean up later.

5. Qualified Lead Rules

A lead is only commissionable if it is submitted properly and meets minimum fit.

Minimum qualified lead:

- Business owner or real decision-maker
- Located in a serviceable market
- Has a real business, not just an idea
- Has a phone/email/contact info
- Has one of these pains:
 - Missed calls
 - Poor follow-up
 - Manual booking/admin
 - Weak review collection
 - Lead leakage
 - Crew/job communication issues
- Agrees to a 1APP audit/demo or asks for pricing/info

Not qualified:

- Random names with no conversation
 - People who cannot pay
 - Businesses outside 1APP's current target market
 - Duplicate leads already in 1APP CRM
 - Leads submitted after another associate/company source already created the opportunity
-

6. Lead Ownership

Lead protection window: 90 days from CRM submission.

If the associate creates a qualified opportunity and logs it properly, they own commission rights for that lead for 90 days.

If there is no meaningful activity for 30 days, 1APP can reassign the lead.

If two associates claim the same lead:

1. First properly logged CRM record wins
 2. If unclear, Tony/Justin decide
 3. No arguing with the client or damaging the brand
-

7. Sales Process

Step 1 — Identify

Find businesses that fit 1APP's target:

- Trades
- Home services
- Local appointment businesses
- Field-service companies
- Owner-operated companies doing roughly \$250K–\$3M/year

Step 2 — Start Conversation

Use approved message/call script.

Simple opener:

Quick question — if someone calls your business and you miss it while you're busy, does anything automatically follow up with them, or does it depend on someone calling back manually?

Step 3 — Book Audit

CTA:

We do a quick 15-minute audit and show you 3 places your business is losing time or leads. No pressure — if it's useful, we'll show you what 1APP would fix first.

Step 4 — Discovery

Capture:

- Business name
- Contact name
- Phone/email
- Industry
- Current pain
- Current software/tools
- Number of leads/calls/jobs per week
- Biggest admin/follow-up problem
- Desired outcome

Step 5 — Demo / Close

Tony/Justin or approved Sales Associate presents the right package.

Step 6 — Handoff

After payment:

- Client onboarding form completed
 - Account setup assigned
 - Associate notes added to CRM
 - Client gets clear launch timeline
-

8. Approved Offers

Starter — \$199/month

For basic lead capture and follow-up.

Includes:

- Missed call text-back
- Booking calendar
- Automated confirmations/reminders
- Basic lead follow-up
- Simple pipeline tracking

Growth — \$399/month

For better client communication and automation.

Includes Starter plus:

- AI/chat or voice intake support where approved
- Estimate/invoice follow-up automations
- Review request automation
- Reactivation campaign
- Monthly performance summary

Pro Ops — \$599+/month

For field-service operations and custom workflow needs.

Includes Growth plus:

- Crew/job communication workflows
- Crew Clock or time-tracking workflow where applicable
- Custom automation buildouts
- Advanced reporting
- Priority support

Pricing note: Associates may present standard pricing only. Custom pricing must be approved by Tony/Justin.

9. Brand & Conduct Rules

Associates must:

- Use approved 1APP scripts and materials
- Be honest about capabilities
- Never guarantee revenue, leads, rankings, or specific results
- Never sell features 1APP has not approved
- Never use fake urgency or fake scarcity
- Never collect client payment personally unless explicitly authorized
- Never use 1APP branding on personal pages without approval
- Never represent themselves as an owner unless legally true
- Keep client/business information confidential

Violation can result in immediate removal from the program and forfeiture of unpaid commission tied to misconduct.

10. Payment Terms

Commissions are paid on **collected revenue only**.

Recommended payout timing:

- Setup fee commission: paid after client payment clears and onboarding starts

- Monthly commission: paid monthly after client payment clears
- Refunds/chargebacks: commission is reversed or deducted from future payouts
- Taxes: associate is responsible for their own taxes
- Contractors may need to invoice 1APP depending on final accounting setup

No commission is paid on:

- Taxes
 - Payment processing fees if 1APP chooses net-revenue calculation
 - Refunded amounts
 - Chargebacks
 - Discounts/free months unless approved
 - Clients already in active 1APP pipeline
-

11. Required Training Before Selling

Before selling, each associate must complete:

1. 1APP overview
2. Target customer training
3. Offer/package training
4. Approved scripts
5. Qualification checklist
6. CRM lead submission process
7. Compliance/brand rules
8. Objection handling
9. Demo handoff process
10. Compensation rules

Certification test: Associate must role-play one outbound conversation and one audit booking conversation before being allowed to sell as Level 2.

12. KPIs by Associate Level

Referral Associate

- 10+ warm introductions/month
- 3+ booked audits/month
- Clean contact details submitted

Sales Associate

- 100+ prospecting touches/month
- 20+ conversations/month

- 8+ booked audits/month
- 4+ completed audits/month
- 1–2+ closes/month minimum target

Certified Partner

- 2–5+ closes/month
 - 90%+ CRM completeness
 - Strong retention on sold accounts
 - No brand/compliance issues
-

13. First 30-Day Launch Plan

Week 1 — Build the Foundation

- Finalize associate compensation
- Create simple associate agreement
- Create CRM pipeline/source tracking
- Create lead submission form
- Create approved scripts
- Pick first 2–5 associates only

Week 2 — Train First Associates

- Run 60-minute training call
- Give them the pitch, target list, and scripts
- Role-play booking conversations
- Assign each associate one niche or local area

Week 3 — Prospecting Sprint

- Each associate submits 25–50 target businesses
- Start outreach
- Book audits into Tony/Justin calendar
- Review CRM daily for quality

Week 4 — Close & Improve

- Close first deals
 - Review which associates are serious
 - Remove weak/inactive people quickly
 - Promote only proven sellers toward Level 2/3
-

14. Associate Agreement Terms to Include

This is not legal advice, but the final agreement should include:

- Independent contractor status
- No employment relationship
- No authority to bind 1APP to contracts
- Approved use of brand/materials only
- Confidentiality
- Non-circumvention / no stealing clients
- Commission schedule
- Payment timing
- Refund/chargeback clawback
- Lead ownership rules
- Termination rights
- No guaranteed income
- No guarantee of leads supplied by 1APP
- Client ownership belongs to 1APP
- Dispute process
- Governing law: Ontario, Canada

Have a lawyer/accountant review before scaling beyond close trusted associates.

15. Recommendation

Start with a controlled beta:

- **2–5 associates maximum**
- **30-day trial**
- **Referral Associate or Sales Associate only**
- **No lifetime residuals yet**
- **No recruiting other reps yet**
- **No custom pricing authority**

After 30 days, keep the people who produce clean opportunities and remove the rest.

The goal is not to have “a lot of people selling 1APP.” The goal is to build a sales channel that brings in clients without creating brand damage, bad promises, or fulfillment headaches.
