

1APP — LeadPRO Agency Handoff Brief

Prepared for: Page Pros LeadPRO Team

Client: 1APP Technologies Inc.

Package: LeadPRO Intermediate

Commitment: 3 months

Prepared by: Tony DeCarlo / 1APP

Date: 2026-08-10

1. Business Overview

1APP helps small businesses stop losing leads by installing practical automation systems for missed calls, follow-up, booking, reminders, reviews, payments, and customer communication.

1APP is built for local service businesses that are too busy to answer every call, chase every lead, manually book every appointment, and remember every follow-up.

Plain-English positioning:

1APP helps busy local service businesses capture missed calls, follow up automatically, book more jobs, and save admin time without learning a complicated tech stack.

Core message:

More leads do not help if the follow-up is broken. 1APP fixes the follow-up system.

2. Main Website / Links

Website: <https://use1app.com>

Booking/demo link: <https://api.leadconnectorhq.com/widget/bookings/1app-free-demo>

Free trial/intake form: <https://api.leadconnectorhq.com/widget/form/vQ2UQ5FjwScLQQJ4DSIG>

Phone: (705) 243-2887

Tony email: adecarlo@use1app.com

Justin email: justin@use1app.com

3. Primary Offer To Advertise

The recommended front-end offer is:

Free 15-Minute Time-Saving Audit

Promise:

We'll show you 3 places your business is wasting time or losing leads — and what automation would fix first.

This is preferred over only saying “Book a Demo” because it speaks directly to the business owner’s pain and gives the sales call a clear consultative angle.

Primary CTA options:

- Book Free Audit
- Book Free Demo
- Claim 30-Day Free Trial

Preferred first CTA:

Book Free Audit

4. Target Customer Profile

Best-Fit Businesses

Owner-operated local service businesses where missed calls, slow response, manual booking, forgotten follow-up, or inconsistent reviews cost real money.

Best Buyer

- Owner/operator or small team.
- Roughly \$250K–\$3M/year in revenue.
- Already receives calls/leads but follow-up is inconsistent.
- Has a real business, real customers, and budget for \$299–\$799/month.
- Wants done-for-you implementation instead of building a CRM themselves.

Priority Niches

Recommended first focus:

- Trades
- Home services
- Field-service businesses
- Local appointment-based businesses

Strong examples:

- Plumbing
- HVAC
- Roofing
- Electrical
- Landscaping
- General contracting / renovations
- Foundation waterproofing

- Cleaning companies
- Mobile detailing
- Pest control
- Snow removal / lawn care
- Auto repair
- Salons/barbers if trade CPCs are too high

Best Geography For Initial Campaigns

Recommended launch geography:

- Ontario first
- Peterborough / Kawarthas
- Durham Region
- GTA if budget supports it
- Barrie / Ottawa / Kingston as potential expansion zones

The first 30–60 days should prioritize lead quality and conversion tracking before expanding too broadly.

5. Customer Pain Points

The best leads usually say things like:

- “We miss calls when we’re on jobs.”
- “We forget to follow up.”
- “Booking is messy.”
- “Customers don’t answer unless we chase them.”
- “I’m doing too much admin.”
- “Our reviews are inconsistent.”
- “I need one place for conversations and bookings.”
- “I’m losing leads because I’m busy working in the business.”

The strongest campaign angle is missed calls and slow follow-up because it connects directly to lost jobs and revenue.

6. What 1APP Sells

Standard — \$299/month

Annual: \$3,000/year

Recommended setup fee: \$499, finalized after signup.

Includes:

- 2-way text and email conversations
- Google Business Profile messaging
- Web chat
- Reputation management

- Facebook Messenger
- Google Business Profile call tracking
- Missed call text back
- Text to pay
- Launchpad

Growth — \$499/month

Annual: \$4,500/year

Recommended setup fee: \$999, finalized after signup.

Includes everything in Standard, plus:

- Calendar
- CRM
- Opportunities
- Email marketing
- AI Voice/SMS messaging

Revenue Engine — \$799/month

Annual: \$7,500/year

Recommended setup fee: \$1,499, finalized after signup.

Includes everything in Growth, plus:

- Social planner
- Invoices
- Form builder
- Survey builder
- Trigger links
- SMS and email templates
- Funnels
- Websites
- Workflows
- Memberships
- Reporting
- Triggers
- Campaigns
- Blogs
- Affiliate manager

7. Suggested Campaign Structure

Campaign 1 — Missed Calls / Lead Capture

Goal: Capture high-intent business owners who know missed calls and slow response are costing them.

Sample angles:

- Stop Losing Jobs When You Miss Calls
- Missed Calls Are Costing You Booked Jobs
- Turn Missed Calls Into Booked Appointments
- Automatic Text-Back For Local Businesses

Sample keywords:

- missed call text back
- missed call text back service
- missed call automation
- automatic text back for business
- business texting automation
- lead follow up automation
- automated follow up for small business
- customer follow up automation

Campaign 2 — Trades / Contractor Automation

Goal: Target service businesses that need better lead handling, booking, and follow-up.

Sample angles:

- One App For Leads, Booking, Follow-Up & Reviews
- Automation For Contractors Who Are Too Busy To Chase Leads
- Book More Jobs Without Chasing Every Call Manually

Sample keywords:

- contractor scheduling software
- contractor crm
- field service crm
- crm for contractors
- scheduling app for contractors
- software for contractors
- service business automation
- field service automation

Campaign 3 — Small Business Automation

Goal: Broader but still business-owner focused.

Sample angles:

- Automate Follow-Up, Booking & Reviews
- Get Your Time Back With 1APP
- One Simple System For Small Business Follow-Up

Sample keywords:

- small business automation
- automate my business
- crm for small business

- business automation software
 - appointment booking automation
 - booking automation for small business
-

Target Keywords To Start With

Use these as the starting keyword universe for Page Pros. Prioritize phrase match and exact match first; broaden only after lead quality is proven.

Tier 1 — Highest Intent / Best Starting Keywords

These keywords connect directly to the pain 1APP solves. Start here first.

- missed call text back
- missed call text back service
- missed call automation
- automatic text back for business
- text back missed calls
- business texting automation
- automated follow up for small business
- lead follow up automation
- customer follow up automation
- appointment reminder automation
- appointment booking automation
- online booking system for small business
- review request automation
- reputation management software small business

Tier 2 — Contractor / Trades Keywords

Use these to target the strongest niche: trades and home service businesses.

- contractor crm
- crm for contractors
- contractor scheduling software
- scheduling app for contractors
- field service crm
- field service automation
- field service scheduling software
- software for contractors
- business software for contractors
- home service crm
- home service scheduling software
- job scheduling software for contractors
- contractor lead management software
- plumbing crm
- hvac crm

- roofing crm
- landscaping crm

Tier 3 — Small Business Automation Keywords

Use carefully. These can work, but they may be broader and need stronger qualification.

- small business automation
- business automation software
- automate my business
- crm for small business
- small business crm
- customer communication software
- business texting software
- lead management software small business
- appointment scheduling software small business
- client follow up software
- all in one business app

Local Keyword Variations

Add Ontario/location modifiers once the base campaign structure is approved.

- Ontario
- Peterborough
- Kawartha Lakes
- Durham Region
- Oshawa
- Whitby
- Ajax
- Pickering
- Lindsay
- Bowmanville
- Barrie
- Kingston
- Ottawa
- GTA

Example combinations:

- contractor crm Ontario
- missed call text back Ontario
- small business automation Ontario
- crm for contractors Ontario
- field service automation Ontario

Keyword Match-Type Recommendation

Start with:

- Exact match for the highest-intent missed-call and contractor CRM keywords.

- Phrase match for contractor, trades, and small business automation terms.
- Avoid broad match until there is enough conversion data and negative keywords are proven.

8. Suggested Negative Keywords / Exclusions

Please build a strong negative keyword list to avoid app-development, job-seeker, free-tool, and DIY traffic.

Suggested negatives:

- free
- cheap
- job
- jobs
- career
- salary
- employment
- course
- tutorial
- template
- download
- open source
- consumer app
- app developer
- app development
- mobile app developer
- build an app
- iphone app
- android app
- login
- support
- refund
- software engineer
- coding

We want paying small business owners, not people looking for employment, free software, DIY templates, or custom mobile app development.

9. Messaging Guidance

Best Ad Headlines

- Stop Losing Jobs To Missed Calls
- Turn Missed Calls Into Booked Appointments
- Automate Follow-Up, Booking & Reviews
- One App For Local Business Follow-Up
- Built For Busy Ontario Trades

- Your Leads Need Faster Follow-Up
- Capture More Calls. Book More Jobs.
- Follow Up Faster Without Hiring Admin

Best Description Copy

- 1APP installs missed-call text back, booking, reminders, review requests, and customer follow-up for local service businesses.
- If you are too busy to answer every call, 1APP helps capture the lead before they call the next company.
- Book a free 15-minute audit and see where your business is leaking leads or wasting admin time.
- Built for local businesses that need faster follow-up, simpler booking, and fewer missed opportunities.

Language To Avoid

Please avoid these angles:

- Guaranteed leads.
- Guaranteed revenue.
- “AI will run your whole business.”
- Generic “business app” without a clear pain point.
- Custom mobile app development language.
- Enterprise SaaS language.
- Overly technical CRM language.

1APP should feel practical, local, and done-for-you.

10. Landing Page Recommendation

The homepage is live and usable, but the strongest paid traffic path would be a dedicated landing page focused on one offer:

Free 15-Minute Time-Saving Audit For Local Businesses

Recommended landing page sections:

1. Hero: “Stop Losing Jobs To Slow Follow-Up.”
 2. Pain: missed calls, slow replies, forgotten follow-ups, no-shows, and missed review opportunities.
 3. Audit offer: “We’ll show you 3 leaks in your follow-up system.”
 4. How it works: audit → build → connect → launch.
 5. Who it is for: trades, home services, appointment-based businesses.
 6. Package teaser: Standard / Growth / Revenue Engine.
 7. CTA: book audit/demo or submit free trial form.
 8. Trust: Ontario-based, done-for-you setup, no long-term contracts.
 9. FAQ: price, timeline, tech requirement, AI voice, booking, support.
-

11. Tracking Requirements

The main objective is not raw clicks. The objective is qualified booked audits and customers.

Primary Conversions

- Demo/audit booked through 1APP booking link.
- Free trial/intake form submitted.
- Phone call from ad or landing page.
- Qualified lead marked inside GHL/LeadConnector.

Secondary Conversions

- Pricing button click.
- Email click to Tony/Justin.
- Click-to-call.
- Landing page engaged session.
- Stripe checkout click.

Suggested GHL Pipeline Stages

1. New Lead
2. Contacted
3. Audit/Demo Booked
4. Demo Completed
5. Proposal / Setup Fee Quoted
6. Won — Standard
7. Won — Growth
8. Won — Revenue Engine
9. Lost / Not Qualified

UTM Requirements

Please use UTMs for every campaign/ad so lead source can be passed into GHL.

Recommended fields:

- utm_source
- utm_medium
- utm_campaign
- utm_adgroup
- utm_content
- utm_term

Example campaign names:

- google_search_missed_call_ontario
- google_search_contractor_crm_ontario
- meta_retargeting_1app_audit

12. 90-Day Success Framework

Because the LeadPRO Intermediate package is a 3-month commitment, success should be judged in phases.

Month 1 — Setup + Validation

Focus:

- Campaign setup.
- Tracking validation.
- Landing page / CTA test.
- Keyword and audience testing.
- Negative keyword refinement.
- First lead quality assessment.

Main question:

Are we attracting the right type of business owner?

Month 2 — Optimization

Focus:

- Optimize toward booked audits and qualified leads.
- Cut weak keywords/audiences.
- Improve ad copy based on real search terms and lead quality.
- Improve landing page/CTA if clicks are not converting.

Main question:

Which campaigns are producing qualified booked calls?

Month 3 — Scale Decision

Focus:

- Scale winning keywords/audiences.
- Compare cost per booked audit against close rate.
- Compare customer acquisition cost against setup fee + monthly recurring revenue.
- Decide what to scale, pause, or rebuild.

Main question:

Can we predictably acquire customers at a profitable cost?

13. Metrics We Care About

Please report on:

- Spend.

- CPC.
- Click-through rate.
- Landing page conversion rate.
- Cost per lead.
- Cost per booked audit.
- Show-up rate.
- Qualified lead rate.
- Demo-to-close rate.
- Cost per acquired customer.
- MRR generated.
- Setup fees generated.

Lead quality matters more than lead volume.

14. Lead Handling Notes

Speed-to-lead is important.

Recommended lead handling:

- New form lead: contact within 5 minutes during business hours if possible.
- Booked audit: automated confirmation immediately.
- Reminder: 24-hour and 1-hour reminder.
- No-show: same-day follow-up.
- Unqualified lead: mark clearly in GHL with reason.

If possible, Page Pros should review lead-quality notes weekly so campaigns can be optimized based on sales feedback, not just platform metrics.

15. Access Needed

Please confirm what access Page Pros requires for:

- Google Ads.
 - Google Analytics / GA4.
 - Google Tag Manager.
 - Google Search Console.
 - Meta Business Manager / ad account, if Meta is used.
 - Website tracking scripts.
 - GHL/LeadConnector forms, booking, pipeline, and conversion tracking.
 - Call tracking.
 - UTM capture into GHL.
-

16. Best First-Month Direction

Recommended starting point:

Google Search focused on Ontario trades/home services, driving to a Free 15-Minute Time-Saving Audit offer.

Best wedge:

Missed calls + slow follow-up = lost jobs. 1APP fixes that.

The campaign should avoid broad “AI automation” traffic at the beginning. The highest-quality first test is business owners who already understand that missed calls, slow follow-up, and poor booking systems cost money.

17. Quick Summary

Business: 1APP Technologies Inc.

Website: <https://use1app.com>

Phone: (705) 243-2887

Emails: justin@use1app.com / adecarlo@use1app.com

Booking link: <https://api.leadconnectorhq.com/widget/bookings/1app-free-demo>

Form/free trial link: <https://api.leadconnectorhq.com/widget/form/vQ2UQ5FjwScLQQJ4DSIG>

Target: Ontario trades, home services, and local service businesses.

Best buyer: Owner-operated company, \$250K–\$3M/year, losing time/leads due to missed calls, slow follow-up, manual booking, poor reviews, or admin overload.

Front-end offer: Free 15-Minute Time-Saving Audit.

Core paid offer: Standard \$299/mo, Growth \$499/mo, Revenue Engine \$799/mo.

Primary conversion: Booked audit/demo.

Secondary conversions: Form submit, click-to-call, pricing click, email click.

Avoid: App-development searches, job seekers, free software seekers, generic AI curiosity traffic.

18. Main Objective

The objective for the first 90 days is to build a profitable paid acquisition system for 1APP by identifying which campaign angles produce qualified booked audits with real local business owners.

The best outcome is not simply more website traffic. The best outcome is a measurable path from ad click → qualified lead → booked audit → closed 1APP customer.
