

1APP — Page Pros LeadPRO Onboarding Call Prep

Prepared for: Tony DeCarlo / Justin Roffey

Company: 1APP Technologies Inc.

Call: Page Pros LeadPRO onboarding — Intermediate package

Date: 2026-08-10

Goal: Make Page Pros' job easy, reduce wasted ad spend, and get them enough business/context/tracking assets to launch cleanly.

1. The Hard Truth

Page Pros can drive traffic, but they cannot fix unclear targeting or a weak conversion path. The onboarding call should not be “tell us what you do.” It should be: **“Here is exactly who we sell to, what pain converts, what counts as a qualified lead, what assets you can use, and what results we need measured.”**

Your job on the call is to force clarity on:

- Who they are targeting.
 - What offer the ads are pushing.
 - What landing page/form/booking link they are sending traffic to.
 - What counts as a qualified lead.
 - How every lead, booking, call, form fill, and paid customer will be tracked.
-

2. What Page Pros LeadPRO Appears To Include

From the Page Pros LeadPRO page:

LeadPRO positioning: PPC management service to increase conversions and traffic to the website through professionally managed PPC campaigns.

Intermediate package purchased:

- Package: **LeadPRO Intermediate**
- Listed price: **\$3,000**
- Setup: **\$750**
- Commitment: **3 months**
- Reason for 3-month commitment: paid traffic usually needs enough time for setup, launch, data collection, optimization, and refinement before judging results properly.
- Includes:
 - Budget and bid management
 - Audience research and targeting
 - User behaviour analysis
 - Monthly reporting

- **+25% management fee**

Important question to confirm: Is the \$3,000 the monthly ad budget, monthly PPC package amount, or total monthly spend before the +25% management fee? The site does not make that crystal clear. Get this clarified before campaigns launch.

Page Pros claims/positioning from their site:

- 2x winner of “Digital Business of the Year Award” 2023 and 2024, presented by Google.
- 5,000+ happy clients.
- 2M+ leads generated.
- 45+ team members.
- 450+ client reviews / 500+ five-star Google reviews.
- No fake guarantees; they emphasize communication, transparency, and measurable growth.

3. 1APP Summary For Page Pros

Plain-English description:

1APP helps small businesses stop losing leads by installing practical automation systems for missed calls, follow-up, booking, reminders, reviews, payments, and customer communication — all managed in one simple system.

Best positioning line:

1APP helps busy local service businesses capture missed calls, follow up automatically, book more jobs, and save admin time without learning a complicated tech stack.

Primary customer pain:

Small business owners are losing money because they miss calls, respond too slowly, forget follow-ups, do booking manually, fail to send reminders, and do not consistently ask for reviews.

Best emotional hook:

More leads do not help if your follow-up is broken.

Main promise:

1APP fixes the follow-up system so business owners can capture opportunities they already have.

Important boundary:

Do **not** position 1APP as generic “AI software” or “app development.” That will attract the wrong clicks. Position it as a **done-for-you automation and follow-up system for local businesses.**

4. Current 1APP Offer + Pricing

Live website offer:

Standard — \$299/month

Annual: \$3,000/year

Recommended setup fee: \$499, finalized after signup.

Includes:

- 2-way text and email conversations
- Google Business Profile messaging
- Web chat
- Reputation management
- Facebook Messenger
- Google Business Profile call tracking
- Missed call text back
- Text to pay
- Launchpad

Growth — \$499/month

Annual: \$4,500/year

Recommended setup fee: \$999, finalized after signup.

Includes everything in Standard, plus:

- Calendar
- CRM
- Opportunities
- Email marketing
- AI Voice/SMS messaging

Revenue Engine — \$799/month

Annual: \$7,500/year

Recommended setup fee: \$1,499, finalized after signup.

Includes everything in Growth, plus:

- Social planner
- Invoices
- Form builder
- Survey builder
- Trigger links
- SMS and email templates
- Funnels
- Websites
- Workflows
- Memberships
- Reporting
- Triggers
- Campaigns
- Blogs
- Affiliate manager

Recommended ad front-end offer:

Promise:

We'll show you 3 places your business is wasting time or losing leads — and what automation would fix first.

Why this works: It is lower friction than “book a demo,” easier to understand than “AI automation,” and gives Justin/Tony a consultative sales angle.

5. Ideal Customer Profile

Best-Fit Business

Owner-operated local service businesses where missed calls, slow response, manual booking, or follow-up delays cost real money.

Priority Niches

Start tight. Do not let Page Pros spread spend across every business type.

Recommended first niche: Ontario trades and home services.

Strong targets:

- Plumbing
- HVAC
- Roofing
- Electrical
- Landscaping
- General contracting / renovations
- Waterproofing / foundation repair
- Cleaning companies
- Mobile detailing
- Pest control
- Snow removal / lawn care
- Auto repair
- Salons/barbers if trades cost-per-lead is too high

Best Buyer

- Owner/operator or small team doing roughly **\$250K–\$3M/year**.
- Still personally involved in calls, booking, follow-up, dispatch, admin, estimates, or reviews.
- Has enough revenue that \$299–\$799/month is reasonable.
- Has urgency around missed calls, booking, reviews, admin overload, or lead leakage.

Qualifying Signals

A good lead says things like:

- “We miss calls when we’re on jobs.”

- “We forget to follow up.”
- “Booking is messy.”
- “Customers don’t answer unless we chase them.”
- “I’m doing too much admin.”
- “Our reviews are inconsistent.”
- “I need one place for conversations and bookings.”

Bad-Fit Leads To Avoid

- People looking for a consumer mobile app.
 - People looking for custom app development.
 - Startups with no revenue.
 - Job seekers.
 - Businesses wanting free software only.
 - Businesses with no budget under \$300/month.
 - Companies looking for “AI chatbot” curiosity, not a business problem.
-

6. Recommended Campaign Strategy

Campaign 1 — Missed Calls / Lead Capture

Intent: Highest pain, easiest offer to understand.

Sample angles:

- Stop Losing Jobs When You Miss Calls
- Missed Calls Are Costing You Booked Jobs
- Turn Missed Calls Into Booked Appointments
- Automatic Text-Back For Local Businesses

Sample keywords:

- missed call text back
- missed call text back service
- missed call automation
- automatic text back for business
- business texting automation
- lead follow up automation
- automated follow up for small business
- customer follow up automation

Campaign 2 — Trades / Contractor Automation

Intent: Target owner/operators with operational pain.

Sample angles:

- One App For Leads, Booking, Follow-Up & Reviews
- Automation For Contractors Who Are Too Busy To Chase Leads
- Book More Jobs Without Chasing Every Call Manually

Sample keywords:

- contractor scheduling software
- contractor crm
- field service crm
- crm for contractors
- scheduling app for contractors
- software for contractors
- service business automation
- field service automation

Campaign 3 — Small Business Automation

Intent: Broader, but still useful if controlled tightly.

Sample angles:

- Automate Follow-Up, Booking & Reviews
- Get Your Time Back With 1APP
- One Simple System For Small Business Follow-Up

Sample keywords:

- small business automation
- automate my business
- crm for small business
- business automation software
- appointment booking automation
- booking automation for small business

Recommended Starting Geo

Start Ontario first, not all of Canada.

Suggested launch geo:

- Peterborough / Kawarthas
- Durham Region
- GTA if budget supports it
- Ottawa / Kingston / Barrie as expansion zones

If Page Pros wants broader targeting immediately, push back. Wider targeting can work later, but first month should prove lead quality.

Target Keywords To Start With

Use these as the starting keyword universe for Page Pros. Prioritize phrase match and exact match first; broaden only after lead quality is proven.

Tier 1 — Highest Intent / Best Starting Keywords

These keywords connect directly to the pain 1APP solves. Start here first.

- missed call text back
- missed call text back service
- missed call automation
- automatic text back for business
- text back missed calls
- business texting automation
- automated follow up for small business
- lead follow up automation
- customer follow up automation
- appointment reminder automation
- appointment booking automation
- online booking system for small business
- review request automation
- reputation management software small business

Tier 2 — Contractor / Trades Keywords

Use these to target the strongest niche: trades and home service businesses.

- contractor crm
- crm for contractors
- contractor scheduling software
- scheduling app for contractors
- field service crm
- field service automation
- field service scheduling software
- software for contractors
- business software for contractors
- home service crm
- home service scheduling software
- job scheduling software for contractors
- contractor lead management software
- plumbing crm
- hvac crm
- roofing crm
- landscaping crm

Tier 3 — Small Business Automation Keywords

Use carefully. These can work, but they may be broader and need stronger qualification.

- small business automation
- business automation software
- automate my business
- crm for small business

- small business crm
- customer communication software
- business texting software
- lead management software small business
- appointment scheduling software small business
- client follow up software
- all in one business app

Local Keyword Variations

Add Ontario/location modifiers once the base campaign structure is approved.

- Ontario
- Peterborough
- Kawartha Lakes
- Durham Region
- Oshawa
- Whitby
- Ajax
- Pickering
- Lindsay
- Bowmanville
- Barrie
- Kingston
- Ottawa
- GTA

Example combinations:

- contractor crm Ontario
- missed call text back Ontario
- small business automation Ontario
- crm for contractors Ontario
- field service automation Ontario

Keyword Match-Type Recommendation

Start with:

- Exact match for the highest-intent missed-call and contractor CRM keywords.
- Phrase match for contractor, trades, and small business automation terms.
- Avoid broad match until there is enough conversion data and negative keywords are proven.

7. Negative Keywords / Exclusions

Tell Page Pros to build a serious negative keyword list from day one.

Suggested negatives:

- free

- cheap
- job
- jobs
- career
- salary
- employment
- course
- tutorial
- template
- download
- open source
- consumer app
- app developer
- app development
- mobile app developer
- build an app
- iphone app
- android app
- login
- support
- refund
- software engineer
- coding

Reason: You do not want to pay for people looking for careers, DIY software, app developers, free tools, or consumer apps.

8. Landing Page Recommendation

Do not send paid traffic only to the homepage long-term.

The homepage is usable, but the best conversion path is a dedicated page with one CTA:

Free 15-Minute Time-Saving Audit For Local Businesses

Recommended page sections:

1. Hero: "Stop Losing Jobs To Slow Follow-Up."
2. Pain: missed calls, slow replies, forgotten follow-ups, no-shows, no reviews.
3. Promise: "We'll show you 3 leaks in your follow-up system."
4. How it works: audit → build → connect → launch.
5. Who it is for: trades, home services, local appointment businesses.
6. Packages teaser: Standard / Growth / Revenue Engine.
7. CTA: booking link or form.

8. Trust: Ontario-based, done-for-you setup, no long-term contracts.
9. FAQ: price, timeline, tech requirement, AI voice, booking, support.

Current Important Links

- Website: <https://use1app.com>
 - Booking/demo: <https://api.leadconnectorhq.com/widget/bookings/1app-free-demo>
 - Free trial/intake form: <https://api.leadconnectorhq.com/widget/form/vQ2UQ5FjwScLQQJ4DSIG>
 - Main phone on site: (705) 243-2887
 - Tony email: adecarlo@use1app.com
 - Justin email: justin@use1app.com
-

9. Conversion Tracking Requirements

Page Pros needs access or instructions to track these conversions before launch.

Primary Conversions

- Demo booked through 1APP booking link.
- Free trial/intake form submitted.
- Phone call from ad or landing page.
- Qualified lead marked inside GHL.

Secondary Conversions

- Pricing button click.
- Email click to Tony/Justin.
- Click-to-call.
- Landing page scroll depth / engaged session.
- Stripe checkout click.

Sales Outcome Tracking

Inside GHL, create/confirm pipeline stages such as:

1. New Lead
2. Contacted
3. Audit/Demo Booked
4. Demo Completed
5. Proposal / Setup Fee Quoted
6. Won — Standard
7. Won — Growth
8. Won — Revenue Engine
9. Lost / Not Qualified

Page Pros should optimize toward **qualified booked audits**, not raw form fills.

Attribution Requirements

Ask them to apply UTMs to every campaign:

- utm_source
- utm_medium
- utm_campaign
- utm_adgroup
- utm_content
- utm_term

Recommended naming:

- google_search_missed_call_ontario
 - google_search_contractor_crm_ontario
 - meta_retargeting_1app_audit
-

10. Assets To Give Page Pros

Brand Assets

- 1APP logo files.
- Website screenshots.
- App/store screenshots if needed.
- Business card assets.
- Existing short videos for trades/HVAC/plumbing/roofing/cleaning/locksmith where useful.
- Brand colours and tone.

Messaging Assets

Use this as ad copy direction:

Core headline options:

- Stop Losing Jobs To Missed Calls
- Turn Missed Calls Into Booked Appointments
- Automate Follow-Up, Booking & Reviews
- One App For Local Business Follow-Up
- Built For Busy Ontario Trades
- Your Leads Need Faster Follow-Up

Core description options:

- 1APP installs missed-call text back, booking, reminders, review requests, and customer follow-up for local service businesses.
- If you are too busy to answer every call, 1APP helps capture the lead before they call the next company.
- Book a free 15-minute audit and see where your business is leaking leads or wasting admin time.

Offer CTA:

- Book Free Audit
- Book Free Demo

- Claim 30-Day Free Trial

Avoid this language:

- Guaranteed leads.
 - Guaranteed revenue.
 - “AI will run your whole business.”
 - Generic “business app” with no pain.
 - Custom app development language.
-

11. Questions To Ask Page Pros On The Call

Use these directly.

Package / Budget

1. “For LeadPRO Intermediate, is the \$3,000 allocated ad spend, a service package, or total monthly PPC budget?”
2. “How exactly does the +25% management fee get calculated?”
3. “Which platforms are included: Google Search, Google Display, YouTube, Meta, or all of the above?”
4. “How much of the first month is setup vs live traffic?”

Campaign Strategy

5. “What campaign structure would you recommend for 1APP based on our target customer?”
6. “Will you start with high-intent Google Search before broader social/display?”
7. “How will you prevent us from paying for people searching for app development, jobs, free software, or consumer apps?”
8. “What geo would you recommend for month one: Peterborough/Kawarthas, Ontario, or broader Canada?”

Landing Page / Offer

9. “Should we send traffic to the homepage, or build a dedicated free audit landing page first?”
10. “What single CTA do you want to optimize for: booked demo, free audit, free trial form, or phone call?”
11. “Do you need us to change anything on use1app.com before ads go live?”

Tracking

12. “What access do you need for Google Ads, Google Tag Manager, Google Analytics, Search Console, GH/LeadConnector, and Meta?”
13. “Will booked calls and form submissions be imported back as conversions?”
14. “Can we track qualified leads and closed customers, not just raw leads?”
15. “Will every campaign/ad use UTMs that flow into GH?”

Reporting / Accountability

16. “What will the monthly report show: spend, CPC, CTR, conversion rate, CPL, booked calls, qualified calls, and sales?”

17. "How often do you optimize in the first 30 days?"
 18. "What does success look like after 30 days for a new B2B service like 1APP?"
 19. "What do you need from us weekly to improve lead quality?"
 20. "Who is our account manager, and what is the response-time expectation?"
-

12. What To Say When They Ask "Who Are You Targeting?"

Use this answer:

We want to start with Ontario-based trades and local service businesses, especially owner-operated companies doing roughly \$250K to \$3M per year. The strongest pain is missed calls, slow follow-up, booking chaos, reminders, reviews, and too much manual admin. We do not want generic app-development leads or people looking for free software. The best lead is a business owner who is already getting calls or leads but knows follow-up is leaking money.

13. What To Say When They Ask "What Is The Offer?"

Use this answer:

The front-end offer should be a free 15-minute time-saving audit. We show them three places their business is wasting time or losing leads, then recommend the first automation system to fix. The paid offer is 1APP Standard at \$299/month, Growth at \$499/month, or Revenue Engine at \$799/month, with setup fee depending on complexity.

14. What To Say When They Ask "What Makes You Different?"

Use this answer:

We are not just selling software. 1APP is a done-for-you automation setup for local businesses that do not want to build their own CRM. We install the follow-up, booking, reminders, missed-call text back, review system, and communication workflows around how the business already operates.

15. What To Say When They Ask "What Result Do You Want?"

Use this answer:

Month one is about validated qualified lead flow, not vanity clicks. We want booked audits with actual local business owners who have missed-call, follow-up, booking, review, or admin problems. We want clean tracking from ad click to booked call to closed customer so we can scale what works.

16. Minimum Access / Prep Checklist

Have this ready or ask Page Pros exactly what they need.

Needed Access

- Google Ads account access or new account setup.
- Google Analytics / GA4 access.
- Google Tag Manager access if installed.
- Google Search Console access.
- Meta Business Manager / ad account access if they run Meta.
- Website edit access or ability to place tracking scripts.
- GHL/LeadConnector access for forms, booking, pipeline, phone tracking, and conversion attribution.
- Stripe link tracking if optimizing for checkout clicks later.

Needed Business Info

- Target geography.
 - Target industries.
 - Monthly ad budget clarification.
 - Offer/CTA to use.
 - Qualification rules.
 - Lead handling SLA: who calls/texts leads and how fast.
 - Demo availability/calendar.
 - Phone number to track.
 - Emails to route leads to.
-

17. Recommended 90-Day Success Metrics

Because the package requires a 3-month commitment, judge it in phases instead of panicking after week two.

Month 1: setup, campaign launch, tracking validation, keyword/negative keyword refinement, first lead-quality read.

Month 2: optimize toward booked audits and qualified leads; cut weak keywords/audiences; improve landing page/CTA based on real data.

Month 3: scale what is producing qualified booked calls and compare customer acquisition cost against setup fees + monthly recurring revenue.

Do not judge only by impressions/clicks.

Track:

- Spend.
- CPC.
- Click-through rate.
- Landing page conversion rate.
- Cost per lead.
- Cost per booked audit.

- Show-up rate.
- Qualified lead rate.
- Demo-to-close rate.
- Cost per acquired customer.
- MRR generated.
- Setup fees generated.

Early Benchmark Logic

If Page Pros gets cheap leads but they are not business owners, the campaign is failing.

If leads are expensive but qualified and book audits, the campaign may be working.

If traffic clicks but does not book, landing page/offer needs work.

If booked calls happen but no closes, sales script or qualification needs work.

18. Best Call Agenda

Use this to control the meeting.

1. Confirm LeadPRO Intermediate package economics.
 2. Give Page Pros the 1APP positioning and ICP.
 3. Agree on one primary offer/CTA.
 4. Agree on first-month geography and niche.
 5. Decide landing page path.
 6. Confirm tracking stack and access needed.
 7. Confirm campaign launch timeline.
 8. Confirm reporting and weekly optimization rhythm.
 9. Ask what they need from Tony/Justin within 24 hours.
 10. Leave with written next steps, owner, and deadline.
-

19. My Recommendation

Start with **Google Search focused on Ontario trades/home services**, driving to a **Free 15-Minute Time-Saving Audit** landing page.

Do not let the first campaign be broad “AI automation” or “business app.” That will waste money on curiosity clicks and app-development searches.

Your sharpest wedge is:

Missed calls + slow follow-up = lost jobs. 1APP fixes that.

If Page Pros is good, they will appreciate that you came prepared. If they are vague, this prep will expose it quickly.

20. Quick Handoff Summary For Page Pros

Business: 1APP Technologies Inc.

Website: <https://use1app.com>

Phone: (705) 243-2887

Emails: justin@use1app.com / adecarlo@use1app.com

Booking link: <https://api.leadconnectorhq.com/widget/bookings/1app-free-demo>

Form/free trial link: <https://api.leadconnectorhq.com/widget/form/vQ2UQ5FjwScLQQJ4DSIG>

Target: Ontario trades, home services, local service businesses.

Best buyer: owner-operated company, \$250K–\$3M/year, losing time/leads due to missed calls, slow follow-up, manual booking, poor reviews, or admin overload.

Front-end offer: Free 15-Minute Time-Saving Audit.

Core paid offer: Standard \$299/mo, Growth \$499/mo, Revenue Engine \$799/mo.

Primary conversion: booked audit/demo.

Secondary conversions: form submit, click-to-call, pricing click, email click.

Avoid: app development searches, job seekers, free software seekers, generic AI curiosity traffic.
