

You have the reputation. Now you need the machine that captures every serious lead.

KCIP's work looks strong. The leak is not craftsmanship — it's speed-to-lead, booking, follow-up, and keeping every quote organized while the crew is busy doing the work.

What we found

KCIP has a strong local story: established since 2017, custom inground pools, liners, revamps, concrete, turf, putting greens, armour stone, cabanas, lighting, sport courts, and visible community proof.

Community proof

High-ticket backyard projects

Visual before/after work

Shopify site mismatch

Generic quote path

Likely manual follow-up

Recommended base service

BEST FIT FOR KCIP

1APP Growth

\$499/month + setup starting at \$999

AI Voice/SMS, missed-call text back, CRM pipeline, booking calendar, 2-way text/email, web chat, reminders, and quote follow-up.

1

MAIN BOTTLENECK

Leads arrive when the owner/crew is unavailable — calls, messages, quote requests, Facebook, and website traffic.

5–10h

ADMIN TIME TO RECOVER

Less phone tag, manual reminders, quote chasing, and digging through messages.

24/7

LEAD RESPONSE

AI Voice/SMS keeps KCIP responsive after hours, during jobs, and while driving.

The system we would build

1

Lead comes in

Website, phone, missed call, Facebook, Google, web chat, or referral.

2

Instant response

AI/SMS captures service type, town, urgency, timeline, and photos.

3

Estimate booked

Qualified prospects book into controlled estimate blocks.

4

Pipeline tracked

New lead → contacted → booked → quoted → won/lost.

5

Follow-up runs

Reminders, quote follow-up, reviews, referrals, and seasonal campaigns.

The meeting line

“You already have the skill, crew, and reputation. 1APP gives KCIP the always-on front office — instant response, booked estimates, organized follow-up, and repeat-customer reminders — so good leads do not disappear while you're on site.”

Competitors are selling trust. KCIP can win with trust plus speed.

COMPETITOR	WHAT THEY'RE DOING WELL	KCIP OPENING
Peterborough Pool & Patio	✓ Strong public proof: 388 reviews / 4.9 stars shown publicly. ✓ "Now booking for 2026" urgency. ✓ Talks permits, install season, pool + patio integration.	KCIP can compete by responding faster and turning quote interest into booked appointments instantly.
Hubble Landscaping	✓ Premium "complete pool package" positioning. ✓ Sells stress-free backyard transformation. ✗ No obvious instant booking found in public copy.	KCIP already offers the full backyard ecosystem — it needs a cleaner guided sales journey.
One Landscape	✓ 25+ years, 25+ team, BBB positioning. ✓ Review ecosystem and strong trust language.	KCIP should automate review requests and referrals after every finished project.

Workflows that make sense for KCIP

1. Missed-call text back

When a call is missed, KCIP instantly texts: "Thanks for calling KCIP — are you looking for pool service, liner/revamp, new pool install, concrete/turf, or landscaping?"

Result: fewer lost leads while the crew is on job sites.

2. AI Voice receptionist

Answers overflow and after-hours calls, qualifies the job, captures details, and routes urgent pool issues differently from major backyard projects.

Result: Scott stops being the bottleneck for first response.

3. Estimate booking calendar

Replace vague "Free Quote" with "Book Your Backyard Estimate" and controlled estimate windows.

Result: less phone tag, more booked consultations.

4. Quote follow-up

After an estimate, unclosed quotes get smart follow-up at 1 day, 3 days, 7 days, and 14 days with proof, photos, and easy reply options.

Result: more quotes turn into deposits.

5. Seasonal reminders

Spring openings, inspections, leak checks, fall closings, liner replacement reminders, and "book next season early" campaigns.

Result: repeat revenue without manual chasing.

6. Review + referral engine

Completed jobs trigger review requests, referral prompts, and private save paths for unhappy customers.

Result: stronger local proof against bigger competitors.

Do not undercharge custom work. Keep the base clean, then scope the extras.

Website rebuilds, QuickBooks automation, and Revenue Engine features are not “little extras.” They add build time, testing, cleanup, and support.

Base: 1APP Growth

\$499/mo

Setup starts at \$999

- AI Voice/SMS messaging
- Missed-call text back
- 2-way text and email inbox
- CRM + opportunity pipeline
- Estimate booking calendar
- Web chat / form capture connection
- Appointment reminders + quote follow-up

Setup fee increases when we add:

- Website rebuild or major redesign
- QuickBooks/invoicing automation
- Multiple custom pipelines
- Advanced forms/surveys
- Large contact import or cleanup
- More than 3–5 custom workflows
- Revenue Engine-level reporting, social, funnels, or campaigns

Optional add-on menu

Website

Website revamp / rebuild

Turn the Shopify brochure into a proper trades lead machine: stronger homepage, project gallery, service pages, reviews, booking CTAs, quote intake, and local SEO structure.

Suggested setup add: +\$1,500–\$3,500+

Accounting

QuickBooks automation

Connect won jobs, customers, estimates, invoices, and payment reminders where possible so admin does not become double-entry hell.

Suggested setup add: +\$750–\$2,000+

Upgrade

Revenue Engine

Add heavier tools: Social Planner, invoices, form builder, survey builder, trigger links, templates, advanced workflows, funnels/ websites/blogs, campaigns, and reporting.

Suggested plan: \$799/mo + higher setup

Growth

Seasonal campaigns

Spring openings, fall closings, inspections, leak checks, liner replacements, and early booking campaigns for next season.

Suggested setup add: +\$500–\$1,250

What “2-way text and email” means

It means KCIP can send and receive customer texts/emails from one shared business inbox instead of everything living on Scott’s personal phone, random email threads, Facebook DMs, and voicemail.

Lead replies

Customer texts back “Can you come Tuesday?” and it lands in **KCIP’s inbox**.

Team sees it

The full conversation stays attached to the customer record and job opportunity.

Automation behaves

Follow-ups can pause when a real person replies, so it does not feel robotic.

Simple close

“Let’s start with Growth so your lead response, estimate booking, and follow-up are handled. If you want the website rebuilt or accounting connected, we scope that separately because that’s custom infrastructure — not a basic setup.”
