

Peterborough Waterproofing — Organized Full Autopilot Onboarding

Client: Peterborough Waterproofing

Contact: Justin Roffey / Belinda Scollick

Package: Full Autopilot — \$750 plus applicable taxes due up front + \$597/mo plus applicable taxes once Justin and Belinda are satisfied and ready for launch

Purpose: Blue/green client answers are organized first. Red follow-up questions are grouped at the bottom.

Client Answers / Build Inputs

1. Business Basics

1. Exact business name for messages/emails

Peterborough Waterproofing

2. Main business address

127 Blairton Rd, Havelock, ON K0L 1Z0

3. Website URL

www.peterborough-waterproofing.com

4. Google Business Profile link

<https://share.google/mKnH2ePa0RMISAxS9>

5. Main business phone and email

705.931.0771 — peterboroughwaterproofing@gmail.com

6. Main decision-maker for approvals

Justin Roffey and Belinda Scollick

7. Day-to-day setup contact

Belinda Scollick

8. Logo, brand colours, images for emails/forms

Yes

2. Services and Service Area

9. Services to list in the system

Basement waterproofing, foundation repair, sump pumps, drainage, crack repair, mold/moisture issues, French drains, weeping systems, weeping tiles, mold remediation/testing, and insurance claims.

10. Services not to offer/mention

N/A

11. Towns/cities served

Peterborough/Kawarthas, Norwood, Havelock, Apsley, Haliburton, Bancroft, Cobourg/Northumberland County, Belleville, Trenton, Quinte, Marmora, Madoc, Stirling.

12. Areas not served

N/A

13. Estimate pricing

Free estimates

14. Situations where customer should call someone else

No

15. Urgent/emergency priority jobs

Foundation leak with heavy water coming in. Sump pumps failing and water flooding basement.

3. Current Phone and Lead Flow

16. Who answers the phone now

Justin Roffey

17. Missed calls during business hours

Voicemail

18. After-hours calls

Voicemail

20. Current lead sources

Google, referrals, Facebook, website, ads, repeat customers, yard signs, radio ads, and home shows.

21. Current call forwarding

Everything goes to Justin.

22. Voicemail message

"Thank you for calling Peterborough Waterproofing — please leave a message."

23. Common reasons people call

Quotes, foundation issues, water problems, mold / air quality concerns.

24. Customer details collected before booking/quoting

Name, address, phone. Add email ahead of time.

4. Phone Number Decision

25. Existing public number or new automation number

Discussed setting up with a new number and potentially transferring it over once the systems are set up.

30. Away/vacation/busy coverage

Belinda note: Justin and Belinda would not be away at the same time.

31. Hide personal staff numbers from customers

It may be nice for Belinda's number to be hidden when making calls, or to have a different number available so it shows as the company. This would look more professional.

5. Business Hours and After-Hours Rules

32. Regular business hours

Likely Monday–Friday, 8–5. They often work outside those hours for quotes/calls.

33. Evening/weekend calls

Yes, confirm with Justin.

35. Holidays / seasonal hours

Closed on all statutory holidays, confirm with Justin.

6. Estimate Booking Rules

Most estimate booking rules still need Justin's confirmation. See red follow-up section.

7. AI Voice / Call Answering

49. AI assistant name

AVA

8. Lead Pipeline Stages

58. Pipeline stages

Recommended stages look good. Adjust if needed: New Lead, Contacted, Estimate Booked, Estimate Completed, Quote Sent, Follow-Up Needed, Job Won, Job Lost.

59. Who moves leads through pipeline

Can this be automatic?

60. Qualified lead

Someone who needs work and provides proper information for contact and follow-up.

61. Lead not a fit

Someone asking generic questions who does not provide proper information for follow-up.

62. Loss reasons

Suggested loss reasons look good. Adjust if needed: price, outside service area, no response, went with competitor, not urgent, other.

63. Automatic follow-up tasks

Question to answer during setup: What tasks can be created and what would this flow look like?

9. Follow-Up Messages

64. Number of follow-ups if someone calls but does not book

7

65. Preferred follow-up schedule

Day 1 — initial follow-up; Day 3 — light nudge; Day 6 — value add/tip/resource/idea; Day 10 — social proof or case study; Day 14 — “still interested?” message; Day 18 — final check; Day 21 — breakup email/message: “Should we close your file?”

66. SMS/email preference

Alternate SMS and email using different tones and strategies.

67. Message tone

Build together, or Belinda can send a separate email with details.

68. Phrases to include/avoid

Can provide in a separate email.

69. Stop follow-up once estimate is booked

Yes. After a client is booked, move them into monthly emails.

70. Reactivate old/dormant leads later

Continue follow-up: SMS 30 days after the first 21-day sequence is finished; SMS every 90 days as seasons change; add contact to monthly emails. Question: can each lead be added to Constant Contact or a continuous CSV sheet automatically?

10. Reviews and Reputation**71. Currently asks for Google reviews**

Yes

72. Who should receive review requests

Customers with completed jobs and past customers who have not left a review. Ask for the review three times if needed. Question: can the system avoid prompting again after they leave a review?

73. When review requests should be sent

After final payment is complete and the job is completed.

74. Google review link

<https://g.page/r/CRjxJMyPcCQVEBM/review>

75. New review notification recipient

Email is fine.

76. Help responding to reviews

Yes please.

11. Staff Access and Mobile App**77. Who needs mobile app access**

Justin and Belinda.

78. Name, email, role, phone number

Yes. Details still need to be collected.

79. User permissions

All permissions.

80. Push notifications for new leads

Justin

81. Appointment notifications

Justin and Chris

82. Missed-call alerts

Justin and Chris

83. Coverage when Justin/Belinda are away

Chris covers for Justin.

12. Website, Forms, and Integrations**84. Current website contact form**

Yes

85. Where form submissions currently go

Email

86. New estimate request form

If it makes things better or flows better. Current website form works quite well.

87. Embed form on website

Sure, if it is better and makes sense — or continue with the current form.

88. Facebook/Instagram messages for leads

They post/share on social media and use groups to find jobs. Question: can groups/comments be automated?

89. Ads / lead sources

Google Ads. They have not used Facebook ads since fraudulent charges from Facebook ads.

90. Invoices/payments connected now or later

Would like everything set up to make processes quick and easy. Question: can it connect with QuickBooks?

91. Payment/accounting tools

QuickBooks and e-transfer.

14. Approval Items Before Launch**97. Final customer-facing message approval**

Belinda

98. Phone number path approval

Justin

99. AI voice script approval

Belinda and Justin

100. Calendar/booking rules approval

Justin

101. Final walkthrough attendees

Belinda

102. Preferred go-live date

ASAP

Red Follow-Up Questions / Confirm Before Build

19. Roughly how many calls are missed per week? **Justin question.**

24. Customer details before booking/quoting: confirm email should also be collected ahead of time.

26. If using the existing number, who owns the number and which carrier/account is it under? **Justin question.**

27. If using a new number, should it be shown on the website, Google Business Profile, ads, voicemail, or only used for follow-up? **Justin question.**

28. Should missed calls trigger an automatic text immediately? **Justin question.**

29. Should calls route to Justin first, Belinda/admin second, then another staff member if no answer? **Justin question.**

32. Confirm regular business hours with Justin. Current assumption: Monday–Friday 8–5, but they often work outside those hours for quotes/calls.

33. Confirm evening/weekend call handling with Justin.

34. After-hours rule: auto-reply only, AI voice answer, book estimate, collect info, or notify staff? **Justin question.**

35. Confirm stat holiday handling with Justin. Current note: closed all stat holidays.

36. How fast should customers be contacted after a missed call? **Justin question.**

37. What response time should the system promise customers, if any? **Justin question.**

38–47. Estimate booking rules still need Justin confirmation: direct calendar vs manual confirm, who performs estimates, available days/times, appointment length, travel/buffer time, different calendars/crews, required information, confirmation/reminder preferences, cancel/reschedule handling.

48. AI voice answering scope: all calls, missed calls only, or after-hours only? **Justin questions.**

50–57. AI voice script still needs Justin input: greeting, required questions, forbidden questions, services/prices allowed, transfer/escalation rules, unknown-answer wording, direct booking vs callback, and emergency instructions.

73. Confirm how review requests should be triggered after job completion/final payment.

77. Confirm whether Chris or anyone else should have mobile app access.

92. Monthly report: ask Justin what he wants included. Also confirm whether adjustments can be made after the first version is created.

94. What would make this feel like a win after 30 days? **Justin question.**

95. What would make it worth keeping after 90 days? **Justin question.**

96. Biggest bottleneck Tony should solve first? **Justin question.**

Immediate Build Notes for Tony

- Use a new dedicated automation number first, then consider transfer once the system is proven.
- Set the AI assistant name as **AVA**, pending final script approval.
- Build missed-call text-back, lead pipeline, booking reminders, review requests, and follow-up automations around the confirmed answers above.
- Hold the estimate calendar/AI call handling rules until Justin confirms the red items.

Organized from the marked-up onboarding PDF received May 22, 2026.
