

EAKINS HEATING & COOLING

Turn Eakins into the obvious local HVAC choice.

A practical lead, trust, and follow-up system for Peterborough homeowners looking for furnace repair, AC service, duct work, and emergency HVAC help.

THE SHIFT

Homeowners don't just ask around anymore.

1. Search Google

They look for “furnace repair near me” or “AC repair Peterborough.”

2. Compare trust

Reviews, photos, website quality, and speed all matter.

3. Call fast

If no one answers or follows up, they call the next HVAC company.

WHAT I NOTICED

You have real credibility — but the internet isn't fully showing it.

- Eakins has been serving the market for years.
- The website lists furnaces, air conditioners, duct work, HVAC, emergency repair, and Rheem.
- The site is functional, but basic.
- The online presence can build trust faster and capture more demand.

THE THREE LEAKS

Most local service businesses leak money in three places.

Findability

People need to find you when they're actively searching.

Trust

You need to look like the established local company you are.

Follow-up

Missed calls, estimates, and happy customers need a system.

THE SOLUTION

HVAC Lead & Reputation Engine

Not random marketing. A simple system designed to help more people find you, trust you, contact you, and become customers.

Google Profile

Reviews

Missed Call Text Back

Website Refresh

Local SEO

Follow-Up

PART 1

Google Business Profile cleanup

- Clean up categories and services
- Add furnace repair, AC repair, HVAC installation, duct work, emergency HVAC, maintenance
- Improve service area targeting
- Add stronger description, photos, and credibility signals
- Track calls, website clicks, directions, and searches

PART 2

Review growth system

Happy customers are already there. The missing piece is asking consistently and making it easy.

- SMS/email review request after jobs
- Direct Google review link
- Simple process Jake or staff can trigger
- Optional private feedback route before negative reviews go public

PART 3

Missed-call text back

When someone calls for heat, cooling, or emergency repair, they're usually ready to act now.

“Hey, this is Eakins Heating & Cooling. Sorry we missed you — what can we help with today?”

This keeps hot leads from calling the next company.

PART 4

Website conversion refresh

The website should answer fast:

- Who are you?
- What do you do?
- Where do you serve?
- Why trust you?
- How do I book?

Recommended fixes:

- Stronger homepage headline
- Click-to-call button
- Emergency service CTA
- 15 years / Rheem / local trust section
- Better form and service pages

PART 5

Local SEO foundation

We help Google and customers clearly understand what you do and where you do it.

Furnace Repair Peterborough

AC Repair Peterborough

HVAC Installation Peterborough

Duct Work Peterborough

Emergency HVAC Peterborough

PAID GOOGLE PLACEMENT

Ads come after the foundation is ready.

Google Local Services Ads

Often best fit for HVAC if eligible. Top placement, verification process, usually pay-per-lead.

Google Search Ads

Traditional ads for searches like furnace repair Peterborough, emergency furnace repair, and AC repair.

Recommendation: fix profile, reviews, tracking, missed calls, and landing page first — then spend on ads.

RECOMMENDED PACKAGE

Growth Package

Setup

\$1,000

Google cleanup, review system, missed-call text back, follow-up automation, website conversion refresh, tracking foundation.

Monthly

\$597 /mo

Review campaign management, Google maintenance/posts, local SEO updates, automation maintenance, reporting, optimization.

Ads management can be added later: \$300–\$500/month + ad spend.

60-90 DAY PLAN

What success looks like

Days 1-14

Access collected, Google cleaned up, missed-call and review system live.

Days 15-45

Website CTA/trust improvements live, follow-up active, reviews building.

Days 45-90

More consistent lead capture, stronger visibility signals, ads decision with tracking ready.

HONEST EXPECTATION

No honest person can guarantee #1 on Google.

What we can control is profile quality, reviews, website conversion, follow-up speed, tracking, local SEO foundation, and ad setup.

That's how we give Eakins a better foundation to compete.

NEXT STEP

If this makes sense, we start with the foundation.

- Google Business Profile access
- Website login or website manager contact
- Current phone setup
- Social page access if recoverable
- Logo/photos
- Preferred service areas and most profitable jobs
